#### First half of 2022 in a nutshell

New Brand Experience Center in Korea

> 3,000 m<sup>2</sup> to showcase our solutions

**Continued good customer activity** Order intake grew by 10% excl. China – for the group on last year's level <sup>1</sup>

**Supply chain constraints impact sales performance** Sales +6.2% for the group <sup>1</sup> - growth in all regions except China

**Strong performance in our service business** 11% sales growth – share of 24% of group sales provides resilience

**Temporarily lower margins** EBIT margin of 2.3% down from 6.9% in the first half of 2021

Medium-term growth drivers intact

Progress in strategy implementation to reach medium-term targets

## **Our challenges**

Availability of components

Higher procurement costs

Buildup of inventory

Inefficient installation process

Slow-down in China

## **Our mitigation measures**

<ul><li>Close contact to suppliers</li><li>Second source where possible</li></ul>
<ul> <li>Further focus on local sourcing and production</li> <li>Repeated price increases for new orders of systems and services</li> </ul>
<ul> <li>Deliver nearly-finished systems; strong customer-orientation</li> <li>Increase component inventory</li> </ul>
<ul><li>Early installation at customer site</li><li>Additional shipments</li></ul>
<ul> <li>Plants operational - not at full capacity</li> <li>Maintain close contacts to customers during lock downs</li> </ul>

Quarterly order intake in CHF million Today ~ CHF 270 m Average pre-Covid ~ CHF 240 m 300 200 100 **COVID** impacts 0 2017 2018 2019 2020 2021 2022

Quarterly order intake is >10% higher than pre-Covid levels

#### Good order intake +10% excl. China <sup>1</sup>

Significant slow-down in China in the second quarter

#### Strong demand from

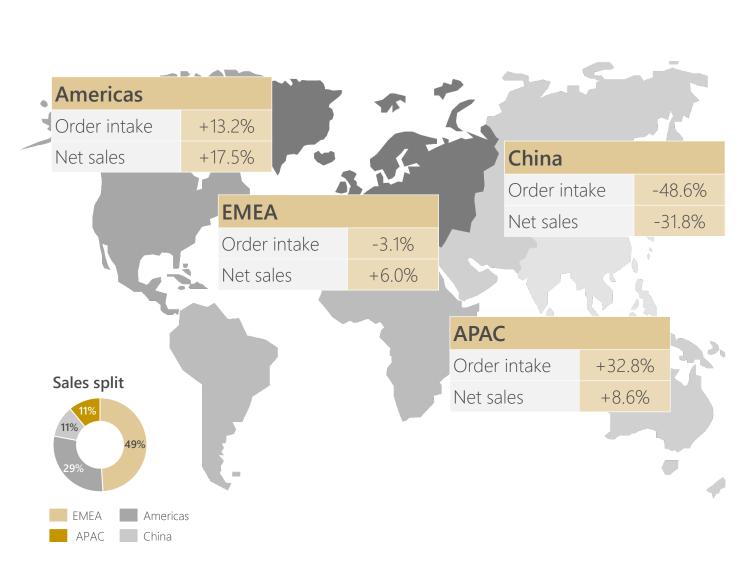

agriculture

construction

semi-conductor and electronics

#### **EMEA**

- Stable demand even vs. strong catch-up effects in 2021
- Successful divestment of Russian operations (~2% of group sales)

#### Americas

- Strong demand for all applications, especially in gold segment
- Net sales growth driven by gold segment

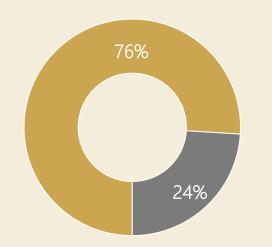

#### China

- Clouding of customer mood due to COVID restrictions
- Serving demand from APAC from our production site in Tianjin

#### APAC

- Continued good demand
- Solid growth especially in Korea and Australia

# Price increases and sales split

Systems businessService business

#### Systems business

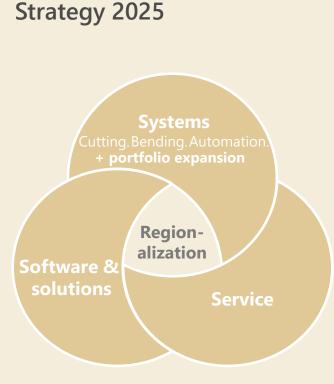

- Implementation of several price increases from fall 2021 to today for new business
- Reduced discretion for discounts significantly
- No price increases on existing backlog
- Time lag of up to six to nine months
- Further price increases planned
- We adjusted terms and conditions to include an inflation-linked price component

#### Service business

- Implementation of several price increases in 2021 and 2022
- Applicable to spare parts and hourly rates
- Immediate effect largely offsetting higher procurement costs and inflation

### We are on track to reach our medium-term targets with our Strategy 2025

> 5% annual organic sales growth

### > 12% EBIT margin

> 25% RONOA

## **Systems**

- Opening of Brand Experience Center in Korea
- Sold first Global DNE systems in entry-level segment
- Launch of new 20kW laser cutting system

## Software & solutions

- Continuing trend towards larger and integrated solutions
- Ongoing successful tests of Smart Factory software with selected test customers
- Market launch at "EuroBLECH" in October

## Service

- More than 95% of new systems sold with maintenance contracts
- 35 additional technicians in H1
- 11% sales growth proves strong offering

### Inventories: Increase of

- ~ CHF 77 million, of which
  - ~ CHF 28 million component inventory
  - ~ CHF 49 million finished systems

## Advance payments:

Increase of ~ CHF 40 million due to higher order intake

As a result, **NOA** increased by ~ CHF 50 million and **RONOA** stands at 6.6%

Finished systems: Installation not yet completed and systems not yet operational due to unavailability of certain components

Inventory still on the balance sheet of our sales entities

#### **Cash flow development**

- Unfavorable effect from higher inventories of CHF 77 million
- Partly offset by advance payments from customers due to good order intake
- Effects from increasing inventories of finished systems expected to reverse

#### **Mitigation measures**

- Continue our customer-friendly approach to deliver almost finished systems
- Optimize installation capacities once components are available

<sup>1</sup> Difference between cash flow and balance sheet number due to exchange rates used

2

**Better gross profit margin:** favorable mix and positive impact from price increases

**Growth strategy:** continued investments in service organization and for sales + marketing

Focus on margin improvements initiated cost containment measures
